Luton Rural District Council.

ANNUAL

REPORT

of

Medical Officer of Health and Sanitary Inspector for the YEAR 1939.

Luton Rural District Council.

ANNUAL

REPORT

of

Medical Officer of Health

and Sanitary Inspector

for the

YEAR 1939.

To the Luton Rural District Council.

Medical Officer's Annual Report, 1939.

Mr. Chairman, Ladies and Gentlemen,

I beg to present my Annual Report on the Public Health and Sanitary Conditions prevailing in your Area for the year ending 1939.

This report is drawn up in accordance with the Ministry of Health's circular 1961, dated 16th February, 1940.

Section A. Statistics and Social Conditions of the Area. General Statistics.

Area (acı	es)	* * *	• • •	• • •	•••		48,590
Populatio	11						
Ce	nsus for	1931	• • •	• • •	• • •	• • •	13,275
Es	stimated	for the	mid-year	1939			16,530
Number	of inhabi	ited hou	ises		• • •		5,300
Rateable	value	• • •	• • •				£74,424
Sum repr	esented	by a pe	enny rate	(net)			£277

Social Conditions and the Extent of Unemployment.

The chief occupation of the district is agricultural, but there are large cement works at Sundon and Houghton Regis and smaller lime works at Barton, Sewell and Totternhoe. There is also a large florist at Eaton Bray, who employs a fair number of hands in the immediate neighbourhood.

Extracts from Vital Statistics of the Year.

		Total	Males	Females	
Live Births	4	2 5 8 6	140	118	Birth Rate per 1,000 of resident population 15.9.
Still Births	Legitimate Illegitimate	9 1	5 0	4 1	Birth rate per 1,000 Births (live and still), 36.5.
Deaths			95	90	Death rate 11.2 per 1,000 of estimated resident population, but when this figure

has been multiplied by the Comparability Factor, the corrected death rate will be 10.08. The corresponding figures for England:—

Birth	rate		• • •	15.0
Death	rate	• • •		12.1

Deaths from puerperal causes (Headings 29 and 30 of the Registrar General's Short List):

Deaths.

No. 29. Puerperal Sepsis 0 No. 30. Other Puerperal causes 1

Death Rate per 1,000 total (live and still) births is 3.6.

The corresponding figure for England and Wales being as follows:—

Puerperal Sepsis74 per 1,000 live and still births

Section B. General Provision of Health Services for the Area.

1. (i) Public Health Officers:-

- Dr. W. K. Parbury, M.R.C.S. Eng., L.R.C.P. Lond., D.P.H. Camb., D.M.R.E. Camb. Medical Officer of Health (part-time to your Authority, but devotes whole time to duties of M.O.H.)
- Mr. Harold Pickering, M.Inst. M. & Cy.E., A.R.San.I., F.R.S.A., Engineer and Surveyor (whole time).
- Mr. J. A. Murch, A.M. Inst. M. & Cy.E., A.M.T.P.I., Deputy Engineer and Surveyor (whole time).
- Mr. E. J. Morgans, B.Sc., A.R.S.I., M.S.I.A. Sanitary Inspector (whole time).

(ii) (a) Laboratory Facilities:-

The examination of Pathological and Bacteriological specimens is made by the Clinical Research Association of Watergate House, York Buildings, Adelphi, London, W.C.2.

Examinations for the year under review—

Number of specimens examined 93

(b) Ambulance Facilities:—

- For Infectious Diseases. A motor Ambulance is kept at the Kensworth Isolation Hospital.
- For Non-Infectious Diseases. A Public Ambulance is kept at the Luton Police Station (Telephone No. 2210). Another Ambulance is maintained by the British Red Cross Society and is kept at Dunstable (Telephone No. 42). These are available for your district.

I consider these Ambulance arrangements are quite adequate. There is an understanding among the neighbouring Authorities that their Ambulances would be available in a case of emergency.

(c) Nursing in the Home:-

The Bedfordshire County Nursing Association supplies 6 nurses to thirteen villages in your district. These Nurses attend to Maternity cases principally, but also to minor Medical and Surgical ailments. They are not allowed to attend to any disease of an infectious nature.

The nurses are supervised by Local Associations. The salaries for these nurses are raised by voluntary contributions, by small fees which are charged to non-members requiring their services and are subsidised by a grant from the County Council.

The following villages are supplied with the names of the nurses:—

Barton				Nurse	Currie.
Streatley				Nurse	Currie.
Sharpenhoe	• • •		• • •	Nurse	Currie.
Caddington				Nurse	Chadwick.
Eaton Bray		• • •	• • •	Nurse	Mullins, S.R.N.
Totternhoe	• • •			Nurse	Mullins, S.R.N.
Hockliffe	• • •	• • •		Nurse	Cooper.
Eggington				Nurse	Cooper.
Stanbridge		• • •		Nurse	Cooper.
Tilsworth	• • •	• • •	• • •	Nurse	Cooper.
Houghton R	egis	• • •		Nurse	Cox.
Toddington	• • •	• • •	• • •	Nurse	Maxwell.
Chalton	• • •	• • •	• • •	Nurse	Maxwell.

Midwives:-

The number of Midwives practising in the area is nine.

Infectious Cases:-

There is no provision made for the treatment of infectious cases in the patient's own home. An Isolation Hospital for the treatment of these diseases is provided free of charge.

(d) Clinics and Treatment Centre:—

These are provided by the County Council.

(e) Hospital:-

There is an Isolation Hospital at Kensworth which is included in the Dunstable Borough, for the reception of Scarlet Fever, Diphtheria and Enteric Fever. This is under a joint board composed of members of your Council, the Dunstable Borough and the Leighton Buzzard Urban District Council.

There are no other Public Hospitals belonging to your Authority.

There is a Voluntary Hospital in Luton which treats Medical and Surgical Cases.

Legislation in Force.

Adoptive Acts: Nil.

Bye-laws and Regulations:-

Prevention of Nuisances.

Cleansing of Earth Closets, Privies, Ashpits and Cesspools.

Removal of Refuse and Noxious Matter.

Cleansing of Footways.

New Streets and Buildings.

Tents, Vans, Sheds, etc.

Slaughter Houses.

Drainage of Existing Buildings.

Section C. Sanitary Circumstances of the area.

^{*} It is proposed to utilize a deep bore well at Battlesden when completed instead of the proposed source of supply in these parishes. At Eggington a temporary piped supply has been provided to serve part of the parish until some permanent supply has been inaugurated.

Luton Rural District Council.

Sanitary Inspector's Annual Report, 1939.

Section C. Sanitary Circumstances of the area.

- 1. (i) Water.
- (a) Piped Supplies.

Kensworth.

During the year new mains were laid in Kensworth parish from the new borewells, and site of the proposed new pumping station, to the existing mains in the village. Preparations for the construction of the water tower were made in the latter part of the year.

(b) Public Borewells.

The Council's borewells at Barton, Caddington, Slip End, Streatley, Studham and Sundon continue to yield satisfactory supplies.

The parishes of Heath and Reach, Hyde, Houghton Regis, Totternhoe and Eaton Bray are supplied by the Statutory undertakers mentioned in previous reports.

The parishes of Billington, Chalgrave, Eggington, Hockliffe, Stanbridge, Tilsworth and Toddington are still supplied from shallow wells, the Battlesden Scheme not yet being completed. At Eggington, however, part of the village is supplied by a borewell owned by the County Council.

(c) Water Analyses.

The public supplies have been subjected to Chemical and Bacteriological analysis twice during the year and the results in all cases proved them to be highly satisfactory.

Throughout the district a number of wells affording supplies to private properties were subjected to Chemical and/or Bacteriological analysis; a summary of the results are as follows:—

The number of samples analysed (Chem. and Bact.)	104
The number of wells suitable for domestic use	22
The number of wells polluted and unsuitable for	
domestic use	37

General.

The public supplies have throughout the year maintained their good yield, no shortage having been experienced.

Water is still being carted to Council Houses at Billington, Stanbridge, Tebworth, and Tilsworth, where supplies remain unsatisfactory. This carting will discontinue when the Battlesden Scheme comes into operation.

1. (ii) Drainage and Sewerage.

In the parishes of Barton, Eaton Bray and Houghton Regis the sewers have been working satisfactorily and have been flushed out when required. In the remaining villages open sewers and ditches have been cleared and cleansed at periodic intervals.

During the year the laying of the new sewers for the village of Toddington was completed, and the new sewage disposal works commenced operating during May. The effluent to the new disposal works was found to be insufficient for the continual use of the two percolating filters. When the Battlesden Scheme is completed, however, and more of the properties at Toddington are converted to the water carriage system the position will be much improved.

A further ten notices were served during the year under Section 39 of the Public Health Act 1936 for the relaying of the drains and connection to the new sewer in regard to properties at Toddington. Five more properties were connected to the sewer as a result of informal notices.

2. Rivers and Streams.

There are no rivers of any size in the District. Of the few streams in the area no action was required for the prevention of pollution.

3. (i) Closet Accommodation.

In the parishes which now have sewerage systems, new properties erected during the year have had water closets installed, and several old properties, particularly at Toddington, have had the privies demolished and replaced by water closets.

3. (ii) Public Cleansing.

The conditions of refuse collection are similar to the report for 1938.

During the year nine informal notices were served on owners requiring the provisions of regulation dustbins.

The two vehicles employed in cesspool emptying continued to work satisfactorily during the year.

3. (iii) Sanitary Inspection of the Area.

Report of Nuisances.

Informal I	Votices	• • •	 118
Statutory	Notices		 10

Defects remedied. 5 (1)Dampness ... 22 (2)Drainage and closets . . . (3)Doors and windows ... 6 Roofs and gutters repaired (4) 5 Pail closets renewed (5). . . 3. (iv) Shops and Offices.

All Factory premises and shops erected during the year were inspected for adequate sanitary accommodation and ventilation. No notices were required to be issued under the Public Health Act 1936.

3. (v) Camping Sites.

- (1) The number of sites in the area which were used for camping purposes during 1939 were 9
- (2) The number of camping sites in respect of which licences have been issued by the L.A. under Section 269 of the P.H.A. 1936
- (3) The estimated maximum number of campers resident in the area at one time during the summer season 1939 60

5

Notices were served on owners having sites occupied without licences.

3. (vi) Smoke Abatement.

No action was necessary during the year.

3. (vii) Swimming Baths and Pools.

The position, as reported in 1938, is unaltered.

3. (viii) Eradication of Bed Bugs.

(1) The number of houses found to be infested were :—

Council Houses			• • •	• • •	5
Other Houses		• • •	• • •		3
Houses suspected of	being	infeste	d, but	on	
examination found to	be fr	ee			0

(2) The work of disinfestation was carried out entirely by the Local Authority. The methods and materials used were similar to those stated in the previous report.

Section D. Housing.

1. Inspection of Dwelling Houses during the year.

- (1) (a) Total number of dwelling houses inspected for housing defects (under Public Health or Housing Acts) ... 812
 (b) Number of inspections made for the purpose ... 873
- (2) (a) Number of dwelling houses (included under sub-head (1) above) which were inspected and recorded under the Housing Consolidated Regulations, 1925 ... 525
 - (b) Number of inspections made for the purpose ... 576

	(3)		uber of dwelling houses found to be in a state so dangerous ujurious to health as to be unfit for human habitation	8
	(4)	und	uber of dwelling houses (exclusive of those referred to er the preceding sub-section) found not to be in all respects souably fit for human habitation	46
2.	Reme	edy o	of Defects during the Year without Service of Formal N	Votices.
	(1)	COIIS	mber of defective dwelling houses rendered fit in sequence of informal action by the Local Authority or rofficers	337
3.	Actio	n un	der Statutory Powers during the Year.	
	(a)	Pro	ceedings under sections 9, 10 and 16 of the Housing Act	, 1936.
		(1)	Number of dwelling houses in respect of which notices were served requiring repairs	10
		(2)	Number of dwelling houses which were rendered fit after service of formal notices:—	
			(a) By owners	10
			(b) By local authority in default of owners	,0
	(b)	Pro	ceedings under Public Health Acts:—	•
		(1)	Number of dwelling houses in respect of which notices were served requiring defects to be remedied	13
		(2)	Number of dwelling houses in which defects were remedied after service of formal notices:—	
			(a) By owners	10
			(b) By Local Authority in default of owners	0
	(e)	Pro	ceedings under sections 11 and 13 of the Housing Act, 19	936.
	,	(1)	Number of dwelling houses in respect of which demolition orders were made	0
		(2)	Number of dwelling houses demolished in pursuance of demolition orders	4
	(d)	Pro	ceedings under section 12 of the Housing Act, 1936.	
		(1)	Number of separate tenements or underground rooms in respect of which Closing Orders were made	1
		(2)	Number of separate tenements or underground rooms in respect of which Closing Orders were determined, the tenement or room having been rendered fit	0

4. Housing Act, 1936—Overcrowding.

(a)	(1) Number of dwellings overcrowded at the end of the year	0
	(2) Number of families dwelling therein	0
	(3) Number of persons dwelling therein	0
(b)	Number of new cases of overcrowding reported during the year	2
(c)	(1) Number of cases of overcrowding relieved during the year	2
	(2) Number of persons concerned in such cases	19
(d)	Particulars of any cases in which dwelling houses have again become overcrowded after the Local Authority have taken steps for the abatement of overcrowding	0

Section E. Inspection and Supervision of Food.

The sampling of milk, food and drugs is undertaken by the County Council. Inspection of premises are as follows:—

		No. of Inspections.	Defects noted and Remedied.
Cowsheds and Dairies	• • •	221	34
Slaughter Houses		. 464	2
Bakehouses		37	3

(a) Milk Supply.

During the year the following additions were made to the registers:-

(1)	Registered premises	• • •	 • • •	9
(2)	Wholesale producers		 	6
(3)	Retail purveyors		 	8

The majority of the premises were reasonably maintained during the year, but several of the informal notices were the result of a general lack of cleanliness.

(b) Meat and other Foods. Slaughter Houses.

With the coming into operation of the Food and Drugs Act 1938 on the 1st October 1939, the position of the slaughter houses in the District was reviewed. It was decided that after the expiration of the four months permitted under the Act licences would not be granted for six of the slaughter houses and one of the knacker's yards in the District. These were quite unsuitable for slaughtering purposes. The remaining seventeen slaughter houses and one knacker's yard were licenced under the 1938 Act as being suitable premises.

Carcases Inspected and Condemned.

,	Cattle	excluding		S	Sheep and	
		Cows.	Cows.	Calves.	Lambs.	Pigs.

School Closure.

No schools have been closed during the year under review.

Section F. Prevalence of, and Control over, Infectious and other Diseases.

The Dunstable and District Joint Isolation Hospital, Kensworth, receives cases of Scarlet Fever, Diphtheria and Enteric Fever from your district.

The total number of beds at the Hospital is 50.

The number of patients from your district treated during the year under review is set out below.

Patients in Hospital on Janua	ary 1st, 1939	:		
Scarlet Fever	• • •	• • •		0
Diphtheria	• • •	• • •		1
Other cases	•••		• • •	0
Admissions:—

Patients remaining in Hospita	ıl December	31st,	1939 :	
Scarlet Fever	•••		•••	3
Diphtheria	• • •		•••	4
Other cases		• • •		0

Scarlet Fever.

Twenty-one cases were notified, all were treated in the Isolation Hospital. No deaths occurred. These cases came from eight different parishes, ten of them from Caddington.

Diphtheria.

Eleven cases were recorded, all of whom were treated in the Isolation Hospital. Eight parishes were affected. No deaths occurred.

Pneumonia.

Eleven cases were notified and eleven deaths were registered.

Erysipelas.

One case was notified, treated in Hospital, and recovered.

Ophthalmia Neonatorum.

One case was notified which completely recovered.

Puerperal Pyrexia.

No cases recorded.

Measles and Whooping Cough.

During the latter months of the year these diseases were made notifiable but I only received one notification of one case of Whooping Cough; there were, however, other cases of Whooping Cough in the villages of Eggington, Kensworth, Caddington, Eaton Bray and Totternhoe and also some cases of measles at Totternhoe.

Non-Notifiable Diseases.

Chicken Pox.

Sundon was the only village affected.

Mumps.

Epidemics of Mumps occurred in Toddington, Eaton Bray and Lower Stondon.

Cancer.

There have been twenty deaths from this disease, twelve of them being males.

Below I append the organs attacked in each case and the ages of the victims.

Males.

Alimentary Canal—10 deaths, ages 67, 76, 72, 63, 80, 59, 70, 83, 60, 69.

^{*}Renotification.

All tuberculosis cases have been notified therefore the ratio of non-notified tuberculosis deaths to total tuberculosis death is nil.

In conclusion I wish to take this opportunity of thanking the Council for their consideration and support, and also the Clerk to the Council (Mr. Evans), your Surveyor (Mr. Pickering), and your Sanitary Inspector (Mr. Morgans), for their valuable assistance.

I am, Ladies and Gentlemen,

Your obedient Servant,

WALTER K. PARBURY,

M.R.C.S. Eng., L.R.C.P. LDN. D.P.H. CAMB., D.M.R.E. CAMB.

November, 1940.
